Fire Suppression Systems

Qtec Fire Services has released a all new Electronic style alarm panel.

This panel can use Linear wire, spot detectors, & pneumatic detection & in any combination.

It is plug and play, with beep recognition for 6 different faults.

The battery back up gives it more than 80 plus hours of life after all power supplies have been extinguished, and with the battery charger there is no need to replace the battery, for several years.

This alarm panel is very cost effective when compared to the competition, or what else is available.

- For orders use **Part Number QTB550**
